I hope it continues ok Anne I am not very sure how to use this. I think you have giving me such a wonderful story about the church and about...in a sense I suppose it goes up and down.

Different strains but when you read my book there are maybe things that you would want more information on just let me know.

I will do that I just want to say thank you very much for what you have given me and well I might well come back because it is a story, and I am glad you have written your book because it is a story that definitely need to be told.

Well yes.
